

Teacher note / answer key
ANIMALS

1. Which animals have the highest amount of young per litter? **Chuditch and Dingo**
2. How many young does the Bandicoot have per litter? **3**
3. Which animal has only two young per litter? **Sugar Glider**
4. What is the total amount of all the litters? **21**

Outcomes:

Maths - Identify a column graph and understand how to read it.

Science - Identify and learn about the litter size of native Australian animals.

English - Follow basic written instruction, reading comprehension.

Art - Use fine motor skills.

Suggested Activity:

Collect native animal data to create a statistical graph. A program such as Microsoft® Excel could be used.
