

Name _____

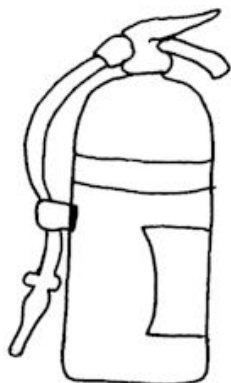

Fire Extinguishers

A fire extinguisher is a portable fire-fighting piece of equipment used to extinguish (put out) small fires. There are six types of fire extinguishers these include water, wet chemical, foam, powder, carbon dioxide and vaporising liquid. Fire extinguishers have saved many peoples lives and can be very useful in the right situation.

fire, water, wet chemical, foam, powder, carbon dioxide, extinguisher,
fire fighter, protection, flammable, hazard, damage, portable, liquid
