

Name _____

Help the guinea pigs find their way to water, carrots and lettuce.

The maze is a grid-based puzzle. At the center of the maze is an illustration of two guinea pigs sitting on a patch of grass. Three goals are marked with text labels: 'lettuce' is located in the upper-left quadrant, 'water' is in the lower-left quadrant, and 'carrots' is in the lower-right quadrant. The maze consists of a grid of paths and dead ends, designed for a child to trace a route from the guinea pigs to each of the three goals.
