

## Pink & Grey Galah

Read the story.

Galahs are Australia's most popular pet.

They are a pest to many farmers.

They are found in most areas of Australia, including Tasmania.

They eat seeds, roots, leaves, flowers, nuts, fruits and insects.

Underline the words that should begin with a capital letter.

galahs are australia's most popular pet.

they are a pest to many farmers.

they are found in most areas of australia, including tasmania.

they eat seeds, roots, leaves, flowers, nuts, fruits and insects.

*Draw a picture of a pink & grey galah on the back of this sheet.*
